

G.N. 7558

RADIATION ORDINANCE (Chapter 303)

It is hereby notified that, in exercise of the powers conferred by section 15(1) of the Radiation Ordinance ('the Ordinance'), the Radiation Board has granted exemption to retailers and end-users of self-luminous timepieces that contain gaseous tritium light sources from the requirements of the Ordinance provided that:—

- (a) The total activity of gaseous tritium in each timepiece shall not exceed one gigabecquerel; and
- (b) The total activity of gaseous tritium in all timepieces in the possession of any retailer and end-user shall not exceed one thousand gigabecquerel per premises.

The above exemption has taken effect from 7 June 2010.

Chairman, Radiation Board
