SCHEDULE

Foreshore and sea-bed affected

Approximately 1 640 hectares of foreshore and sea-bed situated at the waters around the north of the Hong Kong International Airport as delineated and shown edged red on a plan, numbered ISM2491b, deposited in the Land Registry.

Description of the undertaking and the manner in which the foreshore and sea-bed will be affected by the proposed undertaking

- (i) Ground improvement and filling of the sea-bed to form approximately 650 hectares of land.
- (ii) Construction of seawall.
- (iii) Diversion of one set of submarine 11kV cables, comprising a main power cable and associated pilot cable, of approximately 6 kilometres long by water-jetting method to a depth of approximately 3 to 5 metres below the sea-bed. At the field joint (a connecting location), the existing cables will be exposed for approximately 120 metres long by using open-trench method. The trench will be approximately 5 metres deep and 32 metres wide and will be reinstated on completion of the field joint.
- (iv) Construction of pile-supported approach lights on proposed small marine structure.
- (v) Construction of pile-supported beacons.
