## SCHEDULE

### *Foreshore and sea-bed affected*

Approximately 1 090 square metres of foreshore and sea-bed from Siu Sai Wan to Tseung Kwan O Industrial Estate as delineated and shown by a bold red line on a plan, numbered HKM10155, deposited in the Land Registry.

*Description of the undertaking and the manner in which the foreshore and sea-bed will be affected by the proposed undertaking*

The proposed works include:—

- (i) Installation of an optical fibre submarine cable of approximately 2.18 kilometres in length and 60 millimetres in diameter from Siu Sai Wan offshore sea-bed across the Tathong Channel to Tseung Kwan O Industrial Estate by a cable-laying barge that will simultaneously lay and bury the submarine cable at a depth of about 5 metres below the sea-bed. The width of temporary disturbance will be about 0.5 metre.
- (ii) Where the submarine cable crosses the existing cables in the near-shore waters, protection to the submarine cable will be provided by either ‘Urduct’ or Articulated Pipe (AP) prior to burial by divers, if needed.
- (iii) At the crossing of the sewage outfall pipeline of the Drainage Services Department, a shallower burial depth of at least 3 metres above the pipeline will be required and additional cable protection will be employed, i.e. placement of reinforced precast concrete mattresses on top of the submarine cable at the crossing location or placing the submarine cable in AP prior to cable burial. The length of cable protection would not be more than 80 metres with a width not more than 3.5 metres.

For information purposes only, the total length of the Cable System—Ultra Express Link will be about 2.73 kilometres. The first 550 metres or thereabouts of the cable from the Siu Sai Wan direction will be installed by Horizontal Directional Drilling method in which the first 122 metres or thereabouts of the cable will be installed in the underground spaces and the rest of which as delineated and shown by a bold blue line on the plan numbered HKM10155 above referred to will be installed under the sea-bed and it does not involve any works over or upon any foreshore and sea-bed.

### Personal Information Collection Statement

Any information, including the personal data, submitted to the Director of Lands in connection with any written claims served under section 12(1) of the Foreshore and Sea-bed (Reclamations) Ordinance (Chapter 127) will be used for the processing of the claims and other related purposes. The provision of the information, including the personal data, as required under section 12(1) of the Foreshore and Sea-bed (Reclamations) Ordinance (Chapter 127) is obligatory. If such information, including the personal data, as required under section 12(1) of the Foreshore and Sea-bed (Reclamations) Ordinance (Chapter 127) is not provided as requested, the claims may be rejected. Any information, including the personal data, so submitted may be disclosed to the relevant government departments and other organizations or agencies which are required to handle the claims and related matters. Persons who have so submitted their personal data have the rights to request access to and correction of their personal data held by us. Request for access to or correction of the personal data should be made in writing to the Departmental Personal Data Controlling Officer of Lands Department at 21st Floor, North Point Government Offices, 333 Java Road, North Point, Hong Kong.
