The notice of objection shall describe the interest, right or easement of the objector and the manner in which he alleges he will be affected.

SCHEDULE

Foreshore and sea-bed affected

Approximately 68.5 hectares of foreshore and sea-bed situated from the southern boundary to the western boundary of the Hong Kong Special Administrative Region (HKSAR) as delineated and shown by a bold red line, a bold blue line and a bold green line on a plan, numbered ISM2902a, deposited in the Land Registry.

Description of the undertaking and the manner in which the foreshore and sea-bed will be affected by the proposed undertaking

1. Construction of a double berth jetty supported by piles/jetty structures and its associated facilities (the area of sea-bed affected is approximately 4.9 hectares, of which the jetty footprint accounts for about 2.5 hectares) for the operation of an offshore LNG terminal in the southern waters of the HKSAR, to the east of the Soko Islands.
2. Construction of a subsea gas pipeline of approximately 750 millimetres in internal diameter and approximately 45 kilometres in length in the HKSAR waters by dredging/jetting with trench width and armour rock protection varying from about 3 to 29 metres, depending on the construction method, from the jetty to the gas receiving station at the Black Point Power Station.
3. Construction of a subsea gas pipeline of approximately 500 millimetres in internal diameter and approximately 18 kilometres in length in the HKSAR waters by dredging/jetting with trench width and armour rock protection varying from about 8 to 29 metres, depending on the construction method, from the jetty to the Lamma Power Station which will be connected to an existing pipeline at around 1 kilometre from the existing seawall of the Lamma Power Station.
4. Where any one of the subsea gas pipelines crosses the existing subsea telecommunication cable(s), it will be shallow buried with pipe bridges/concrete mattresses to provide protection to the subsea telecommunication cable(s).

The area of foreshore and sea-bed affected is shown on the plan on the next page for identification purposes only. The area is more particularly shown on the plan numbered ISM2902a above referred to.

Personal Information Collection Statement

Any information, including the personal data, submitted to the Director of Lands in connection with any written objections/comments will be used for the processing of the objections/comments and other related purposes. The provision of any information, including the personal data, other than the information as required under section 6(2) of the Foreshore and Sea-bed (Reclamations) Ordinance (Chapter 127) is voluntary. However, it may not be possible to process the objections/comments if such information, including the personal data, is not sufficiently provided. Any information, including the personal data, so submitted may be disclosed to the relevant government departments and other persons, organizations or agencies which are required to handle the objections/comments and related matters. Persons who have so submitted their personal data have the rights to request access to and correction of their personal data held by us. Request for access to or correction of the personal data should be made in writing to the Departmental Personal Data Controlling Officer of Lands Department at 21st Floor, North Point Government Offices, 333 Java Road, North Point, Hong Kong.
